

T8 LED Glass Tube Professional

Features

- ~ Direct replacement for T8 fluorescent tube
- ~ No replacing or rewiring of lamp holders, works with ballast
- ~ Highly recommended for value, quality and price

Product Benefits

JNB® LED glass tubes Professional convert your existing fluorescent fixture to LED technology. The plug and play ease of this LED bulb allows a direct replacement for your T8 connections, with no replacing or rewiring of lamp holders required. The LED bulb can operate in existing fluorescent fixtures with ballasts that have a 2-pin G13 connection. The LED technology eliminates visible flickers or strobe.

> Brightness: 1800 Lumens (1200mm) / 900 Lumens (600mm)

> Actual Light Colour: 6500K (daylight)

> Energy used: 20-Watt (1200mm) / 10-Watt (600mm)

> Operates in fluorescent fixtures with ballast

> No replacing or rewiring of lamp holders required

Features

T5 LED Integrated

- ~ Light weight, slim and easy installation
- ~ Modern, integrated and unobtrusive design
- ~ Flicker-free with instant start electronic operation

Product Benefits

The T5 LED Integrated from JNB® is the perfect energy-efficient solution for general purpose lighting in residential and light commercial applications. This light is an ideal replacement for a less-efficient linear fluorescent light because it will save you money on your power bills. The best part is that the LEDs are integrated into the fixture, so you get many hours of maintenance-free operation without the hassle of changing bulbs.

- > 18 months warranty
- > Impact-resistant polycarbonate housing
- > Brightness: 350 Lumens (300mm) to 1600 Lumens (1200mm)
- > Energy used: 5-Watt (300mm) to 20-Watt (1200mm)
- > Power cable, adaptor, cover and mounting clip included
